
Step 11)

Repeat steps 1-10 for the opposite side of the kite. Re-attach your flying lines to the kite. Your kite is now ready to fly.

! WARNING

ALWAYS inspect your equipment for signs of wear and tear each time before use, particularly all lines, canopy, bladders, screws and fittings (including pulleys).

IF any products are found to show signs of wear and tear these should be repaired or replaced immediately and before further use. If in doubt about any signs of wear and tear, please contact your local vendor. Contact details are available from www.cabrinhakites.com.

NEVER place yourself in a situation where breakage of any one of the various kitesurfing components would pose a risk to yourself or others, or make it impossible to return to the shore securely and unassisted.

CHECK your gear before going on the water. Insure that your flying lines, security systems, kite, board, etc. are all rigged properly and are in working order.

A frequent inspection of the kite and the control system should be made in order to identify punctures, tears, or abrasions in the canopy, struts or security systems. It is also necessary to check the fly lines for wear and for unwanted knots, which may reduce the strength of the fly lines.

DO NOT USE THIS PRODUCT UNLESS YOU HAVE READ AND UNDERSTAND THESE WARNINGS, CAUTIONS, AND INSTRUCTIONS WHICH ARE FOR YOUR SECURITY AND PROTECTION. THIS INFORMATION MAY BE SUBJECT TO CHANGE AT ANY TIME. FOR CURRENT UPDATES, PLEASE VISIT OUR WEBSITE AT: WWW.CABRINHAKITES.COM.
